Education

California State University Northridge, 2021, B.S. Computer Science

Experience

Software Project Manager/Team Member | Campus Key [Senior Design] | Aug. 2020 – Present

- I am currently managing the team and participating in the development of the future iOS application 'Campus Key'. Campus Key is a start-up company made by college students, for college students.

Web Developer | Self-Employed | June 2020 – Aug. 2020

- Worked to build skills in full-stack, website development using HTML, CSS, and JS. Built a blogging site that I purchased a domain and server for (Thinking-over.com).

Software Project Manager/Team Member | Management Squad [CSUN] | Aug. 2019 – Dec. 2019

- Worked with a team to properly manage and produce all of the front end, mid, and back end design work for an Office Program/Software.

Employment

Membership Services Assistant | Student Recreation Center | July 2019 – March 2020

- Working the front desk at the Student Recreation Center on CSUN's campus. This requires interpersonal skills, communication, and critical thinking.

Technical Skills

- Management: AGILE, SCRUM
- Web Development: HTML, CSS, JavaScript, Laravel, React, Node.js
- App Development: Swift, SwiftUI
- Databases: MySQL, SQLite
- OS: Mac, Windows, Linux / Microsoft Office
- Other Languages: Java, C++, Ruby, Python

Awards

- CSUN 'CECS Scholarship' | 2020-2021
- Bob Kingston Award/Scholarship | June 2014

Profile

Software engineer with experience from a variety of classes, personal projects, previous work experiences and tutoring of prospective software developers. Academically experienced in product and project management for any type of software development. Works well as a team member or as a leader of a group. A driven and congenial software engineer, eager to learn and excel in any work environment.
